

Pioneering a
Greener Tomorrow

Redefining Recycling excellence

COMPANY OVERVIEW

We are at the forefront of transforming waste into valuable resources. Established in 2006, our dedication to sustainability, enthusiasm for environmental preservation and extensive experience in recycling have positioned us as a trustworthy ally in the recycling industry.

Recognized and approved by the Dubai Municipality, we are entrusted with the secure disposal of waste materials.

Our authorization extends to issuing official certificates for both waste destruction and recycling processes, ensuring strict compliance for our customers.

OUR VISION

Our vision is a world where waste is transformed into valuable resources, and sustainability is at the core of every operation. We strive to lead the way in creating a circular economy where materials are reused, repurposed, and recycled to minimize environmental impact.

OUR MISSION

To empower sustainability and environmental stewardship in the UAE through innovative recycling solutions, transforming waste into valuable resources and fostering a culture of responsibility towards our planet for present and future generations

WHY CHOOSE US

Exceptional team

Our incredibly cordial employees would work directly with you to understand your needs while a highly driven operations crew would meticulously process your waste.

Tailored solution:

We possess dedicated machines tailored to every type of waste recycling.

Well-equipped processing facility

We operate in a 10,000 square meter comprehensive facility with cutting-edge technology. We can process 350–500 MT of non-food waste and 250–350 MT of organic waste per month at our facility.

Prompt collection

Our responsive team ensures the collection of waste on the same day, providing convenience for both businesses and households. This allows them to manage waste promptly without unnecessary delays.

RECYCLE

OUR SERVICES

Our solutions are custom made to suit your requirements, we are cost effective and efficient in delivering an eco-friendly solution to all your recycling needs.

Specialized Waste Recycling

Organic Waste Recycling

Tobacco & Cigarette Recycling

E- Waste (WEEE) Recycling & Data Protection Services

Textile And Fabric Recycling

Plastic Waste Recycling

Battery Recycling

Glass Waste Recycling

Metal Waste Recycling

SPECIALIZED WASTE RECYCLING

Businesses face challenges in disposing of specialized waste in a safe, economical, and ecologically responsible manner while adhering to their CSR regulations.

Green Land Recycling Solution is well equipped to effectively manage specialized waste and is committed to ensuring the product's BRAND PROTECTION.

Specialized waste includes

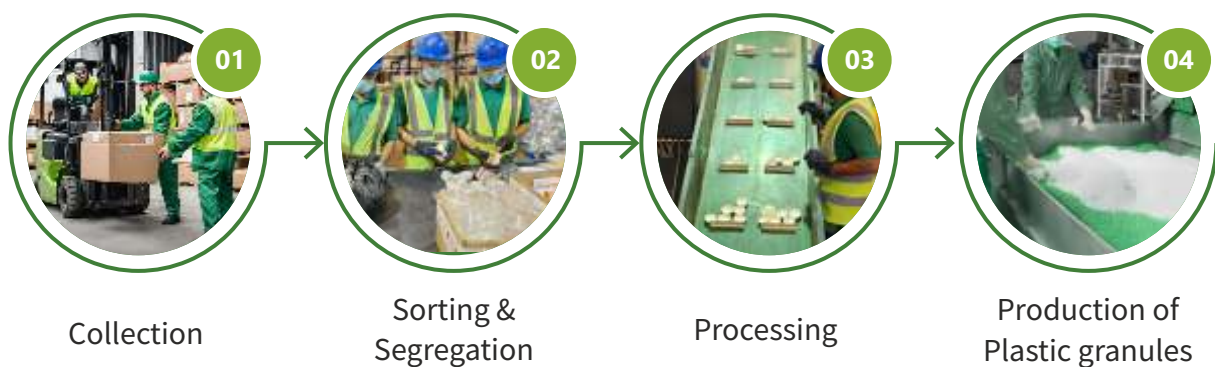

Low-shelf life good
Counterfeit products
Manufacturing defect products

WHAT WE ACCEPT

Personal Care | Cosmetics | Perfumes | Apparel & Accessories

HOW WE TRANSFORM WASTES

ORGANIC WASTE RECYCLING

Approximately **1.92 million tons of food waste end up in landfills**, producing methane gas, which is three times more harmful than carbon dioxide.

Green Land Recycling Solutions addresses this issue by securely recycling food waste, aiming for comprehensive food waste management.

Through organic waste recycling, collected food waste is transformed into soil enrichers.

Recycling food waste brings various benefits:

-  Reduce carbon footprint and lower methane emissions from landfills

-  Generation of renewable energy

-  Restoration of nutrients to the soil

-  Assistance in businesses adopting CSR policies

WHAT WE ACCEPT

Packaged food items | Fruits / Vegetables | Egg & Poultry, fish | Frozen food

We do not accept General wastes & Wet wastes (Leftover food)

HOW WE TRANSFORM WASTES

TOBACCO & CIGARETTE RECYCLING

Because of their toxic compounds, cigarette butts rank among the wastes that pose the greatest threat to ecosystems. Recovering and recycling cigarette butts can help cut down on the use of fossil energy and its impact on the environment.

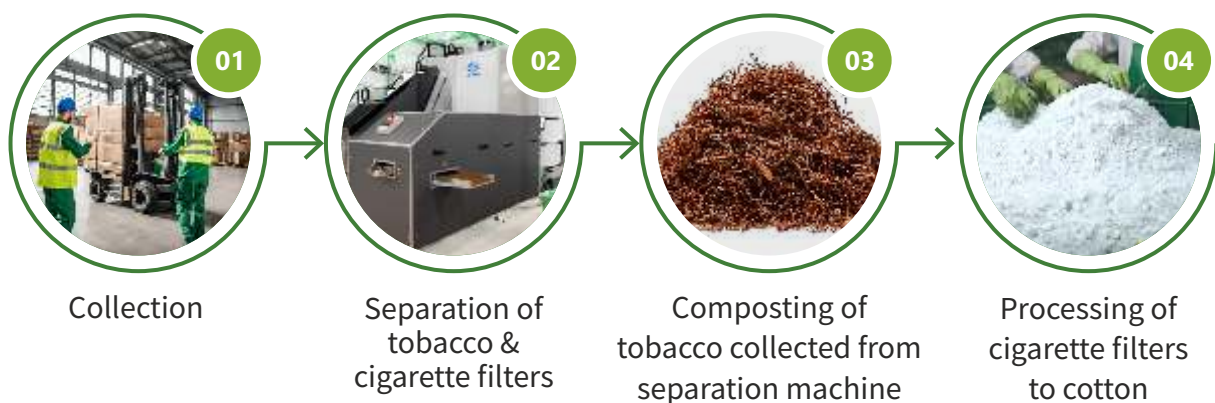

Our goal at GLR Solutions is to offer you an affordable recycling option for tobacco and its byproducts.

WHAT WE ACCEPT

Tobacco dust and molasses | E-cigarettes | Cigarette filters
Rolling paper | Outer and inner foil packaging

HOW WE TRANSFORM WASTES

E- WASTE (WEEE) RECYCLING & DATA PROTECTION SERVICES

At Greenland Recycling Solutions, we are dedicated to promoting a circular economy and reducing the environmental impact of electronic waste. Join us in our mission to dispose of electronic equipment responsibly and sustainably.

Together, we can make a significant impact on e-waste reduction.

WE OFFER

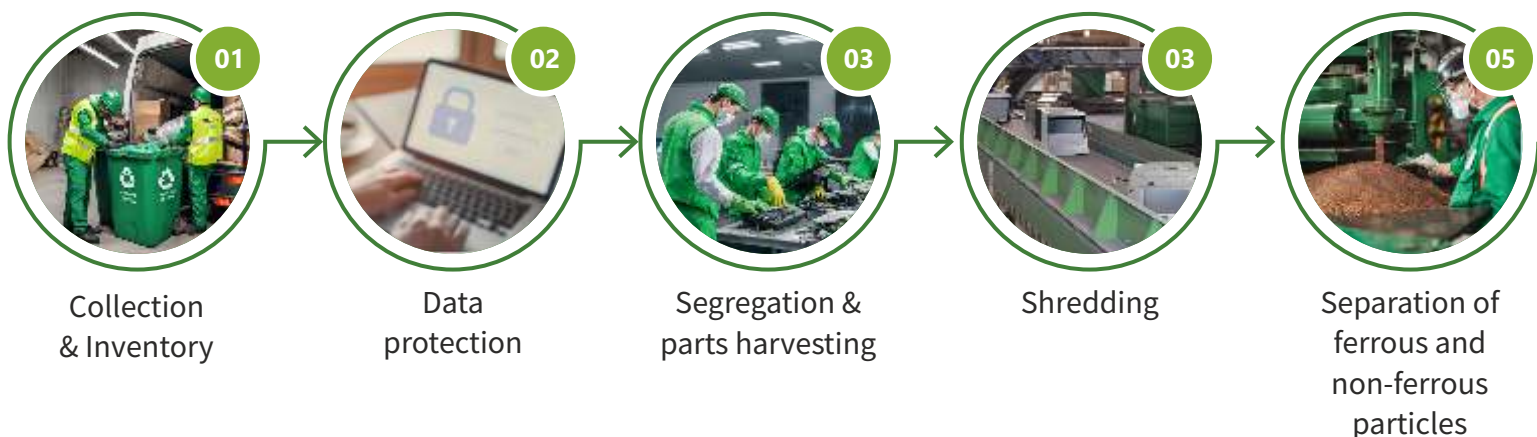

- IT asset recovery
- Device deployment
- Hardware destruction
- Data deletion

WHAT WE ACCEPT

Desktops and laptops | Printers and fax machine
Mobiles and telephone | Household electronic

HOW WE TRANSFORM WASTES

TEXTILE AND FABRIC RECYCLING

Annually, tons of clothing contribute to landfills, and textile waste takes 1 to 200 years to decompose, releasing harmful greenhouse gases in the process.

We're committed to transforming the textile industry by providing responsible and sustainable fabric and textile waste recycling services.

Benefits of recycling textile waste:

Facilitate access to affordable clothing worldwide

Generates cost-effective raw materials for production of new goods

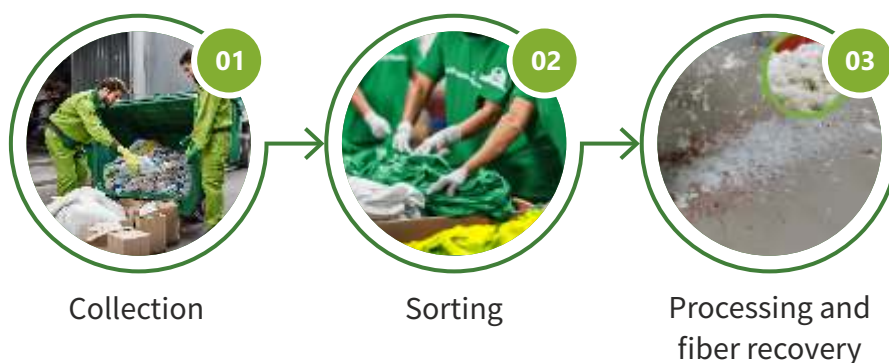

Mitigate pollution and preserve landfill space

WHAT WE ACCEPT

Counterfeit and unsold textiles | Shoes | Uniforms | Cut and sew textiles

HOW WE TRANSFORM WASTES

PLASTIC WASTE RECYCLING

Millions of metric tons of plastic waste enter the environment, landfills, and oceans annually. Our eco-conscious plastic recycling method addresses this challenge

In our processing facility, we efficiently recycle various plastic materials, from simple to intricate polymers.

We empower companies to responsibly manage their plastic waste, fostering higher recycling

WHAT WE ACCEPT

Squeezable bottles and food wraps
Low density poly ethylene (LDPE)

Water bottles and plastic trays
Polyethylene terephthalate (PET)

Margarine tubs and ready-meal trays - Polypropylene (PP)

Milk cartons and shampoo bottles
High density polyethylene (HDPE)

Pipes and blister packages
Polyvinyl chloride (PVC)

Egg cartons and disposable plates & cups - Polystyrene (PS)

HOW WE TRANSFORM WASTES

BATTERY RECYCLING

We accept:

- Sealed lead-acid (emergency lighting)
- Passenger vehicle | Light and heavy truck vehicle
- Motive (electric forklift)
- Stationary (emergency backup)

GLASS WASTE RECYCLING

We accept:

- Commercial glass | Optical glass
- Glass-ceramics

METAL WASTE RECYCLING

We accept

- Ferrous metals**, containing iron and carbon, including steel, alloy steel, wrought iron, and cast iron
- Non-ferrous metals** like copper, aluminum, and lead.

Elevate, Empower, Enrich:

CSR Commitment for a Better Tomorrow

Companies should adapt their Corporate Social Responsibility (CSR) policies to align with growing societal expectations and environmental concerns. According to reports 42% of companies worldwide use CSR to differentiate themselves from the competition while 72% of consumers believe companies should be legally obliged to society. In the near future, consumers and investors are likely to place increasing importance on CSR, making it essential for companies to integrate responsible business practices into their core strategies.

"Fulfilling Futures, Nurturing Communities: Our Dedication to Sustainable Impact."

Investing in and promoting advanced recycling technologies is pivotal to achieving a circular economy. By perusing these technologies, we aim to minimize waste, conserve resources, and contribute to a sustainable and circular approach to material usage.
